### **Principal / Associate Director | Wilmslow, Cheshire | £45,000 to £60,000 + Bonus scheme + Benefits**

Our client is a well-established independent specialist Acoustic consultancy, with a solid reputation and growing client base. They are seeking to recruit a talented Acoustic Consultant with experience across both Building Acoustics, and Environmental Noise & Vibration a reliable Acoustician to join them in their offices in Cheshire. The workload is varied and provides a good mix of commercial & residential developments, mixed-use schemes - with some industrial and mechanical noise elements all involved. We are seeking a candidate who can manage projects and fulfil client expectations from initial enquiry to final handover. Experience of modelling using CadnaA, writing Environmental Noise chapters to support EIAs and providing Expert Witness testimony is required.

### **Junior / Graduate Acoustic Consultant | Cambridge or Milton Keynes | up to £28,000**

As an independent Acoustic Consulting firm established for almost 20 years, my client has gained an enviable reputation in the market and punch well above their weight to work on a range of prestigious projects in London and across the UK. The workload is interesting and varied with good of Architectural & Building Acoustic design, and Environmental Noise & Vibration assessments. They have an opening for a bright and ambitious Acoustician. Candidates will be expected to have a valid UK driving license, a Bachelor degree in Acoustics or closely related subject, or the IOA postgraduate Diploma and be able to demonstrate excellent communication skills. Experience in using INSUL and/or CadnaA modelling software would be useful. Although experience would be helpful, excellent Graduates will be considered.

### **Acoustic Engineer | Berkshire | £22,000 to £30,000**

Degree qualified Acoustic Engineer sought to work within small agile Acoustic consultancy division of this provider of environmental building products. Salary will be commensurate with experience, but as a minimum candidates will be degree qualified and possess the IOA Diploma – with ideally some experience of noise & vibration testing / assessment. Experience within the field of Building Acoustics is preferred, as is practical knowledge of CADNA & CATT software.

### **Acoustic Consultant | Royal Tunbridge Wells | up to £32,000**

This is a terrific opportunity to work in a beautiful location assisting the Principal Acoustician on a range of acoustics projects across Buildings, Planning and Environmental Noise Assessment. Supported by a network of experienced Acousticians and surveyors across the UK, your role will be predominantly office based to assist the Principal Acoustician in successfully delivering projects to a range of clients. They are ideally seeking a candidate with 2 to 4 years' experience in consultancy, who possesses good modelling skills (preferably with CADNA) and solid report writing abilities.

### **Senior Environmental Noise Consultant (Team Leader) | Birmingham | £40,000 + Benefits package**

Our client is an independent environmental and planning consultancy with offices based at various locations around Central England. They are expanding their Noise services and as a result are seeking to recruit a consultant with a minimum of 4 or more years' experience in environmental noise assessment within consultancy. Your role will be to act as Lead Acoustic consultant in Birmingham, with a view to growing a team in that office. You will be supported by Noise specialists in other regional offices, as well as the Director of the Birmingham branch. Candidates will be familiar with working on a range of residential / transportation developments and be conversant with BS4142 / BS8233.

### **Environmental Noise Specialist (Graduate to Consultant) | Warwickshire | up to £34,000 + Benefits**

This is an outstanding opportunity to work within the Noise & Vibration team of a leading multi-disciplinary Environmental consultancy. They are seeking a candidate with around 2+ years' experience in Acoustic consultancy - with experience of working on highways schemes, construction projects and across industry/manufacturing. Candidates will ideally be at least Associate Members of the Institute of Acoustics (AMIOA), hold an Acoustics related degree (and/or IOA Diploma) and possess a full UK driving licence. A competitive salary will be accompanied by an excellent benefits package, along with CPD support and great prospects to progress in a growing team. A Graduate with a strong academic record will be considered.
