

Recruitment Solutions: **Acoustics | Noise | Vibration**

Since 2004, MSA has provided a bespoke recruitment service to clients and candidates working in Acoustics, Noise and Vibration. As a niche recruiter in this sector, we have developed a comprehensive understanding of the industry enabling us to provide candidates with a wealth of information and a consultative approach to securing your next career move. We are currently recruiting for the positions listed below – and for a comprehensive list of our current vacancies, please visit:

www.msacareers.co.uk/vacancies/acoustics-noise-vibration

Acoustic Consultant: | West Byfleet | up to £34,000

This is an excellent opportunity to join a well-established multi-disciplinary Environmental Consultancy and work alongside two very experienced and respected Acousticians. Due to increased workload they are seeking to recruit an Acoustician with around 2 or more years consulting experience. Working on a range of projects spanning Buildings, Planning & Environment – you will be involved in all aspects of consulting including design, fee proposals and modelling using CADNA. You will be degree qualified in Acoustics and as a minimum AMIOA. Excellent Graduates with little experience will be considered.

Senior Acoustician | Albert Square, Manchester | up to £38,000 + Benefits

Our client is a leading Consultancy specialising in Environment, Planning & Sustainability issues across the infrastructure and property sectors. Due to the continued growth of their Manchester office, they have an opening for a Senior Acoustic Consultant to lead Acoustics work in the North of England with support from their head office in London. We are looking for candidates with experience of managing noise on large infrastructure projects and ideally across the transportation sector (rail / road). Excellent opportunity to grow the Noise team in Manchester and progress your career.

Senior Acoustician | Wilmslow, Cheshire | £35,000 to £45,000 + Bonus scheme + Benefits

Our client is a well-established independent specialist Acoustic consultancy, with a solid reputation and growing client base. They are seeking to recruit a reliable Acoustician to join them in their office in Cheshire. They are seeking a good all-rounder with experience across both Building Acoustics, and Environmental Noise & Vibration. The workload is varied and provides a good mix of commercial & residential developments, mixed-use schemes - with some industrial and mechanical noise elements all involved. Experience of modelling using CadnaA is preferred. Experience of writing Environmental Noise chapters to support EIAs would be beneficial.

Sales Manager: Noise Control Engineering | Home-based (South East of England) | Up to £45,000 + Bonus

Our client is a manufacturer of specialist Acoustic and thermal containers supplied to clients across the Power Generation and Industrial markets. They have an excellent opportunity for a Sales Manager to operate in a home-based role covering the South of England. We are seeking applicants with a proven track record of selling acoustic noise control equipment within a manufacturing / industrial environment. This role will be home-based covering the South East of England, so suitable access to the south-east motorway network is essential. A basic salary of up to £45,000 is on offer to exceptional candidates, along with a performance related bonus.

Senior Environmental Noise Consultant (Team Leader) | Birmingham | £40,000 + Benefits package

Our client is an independent environmental and planning consultancy with offices based at various locations around Central England. They are expanding their Noise services and as a result are seeking to recruit a consultant with a minimum of 4 or more years' experience in environmental noise assessment within consultancy. Your role will be to act as Lead Acoustic consultant in Birmingham, with a view to growing a team in that office. You will be supported by Noise specialists in other regional offices, as well as the Director of the Birmingham branch. Candidates will be familiar with working on a range of residential / transportation developments and be conversant with BS4142 / BS8233.

Acoustic Consultant | Royal Tunbridge Wells | up to £32,000

This is a terrific opportunity to work in a beautiful location assisting the Principal Acoustician on a range of acoustics projects across Buildings, Planning and Environmental Noise Assessment. Supported by a network of experienced Acousticians and surveyors across the UK, your role will be predominantly office based to assist the Principal Acoustician in successfully delivering projects to a range of clients. They are ideally seeking a candidate with 2 to 4 years' experience in consultancy, who possesses good modelling skills (preferably with CADNA) and solid report writing abilities.
