

ACOUSTIC CONSULTANT (2 to 5 YEARS)

US

Ion Acoustics is a small, friendly acoustics company based in central Bristol, seeking a new team member, ideally with experience of environmental and architectural acoustics. We are an acoustic consultancy working on diverse architectural and environmental projects. We provide acoustic design advice to a wide range of sectors including renewable energy, education, housing, broadcast, the arts, and the live music industry. Clients include: the BBC, energy suppliers, major architects, contractors, and developers. We pride ourselves on providing practical acoustic design advice which is strong on technical content. We are an equal opportunities employer. Our policy is to recruit a diverse workforce and follow the guidelines of the Equality Act

YOU

Qualified to minimum degree level in acoustics or an acoustics-related subject, you will be a team player with the ability to communicate well, verbally and in written documents. Ideally with 2 to 5 years' experience including environmental noise modelling and architectural acoustics. You need to be an all-rounder with the skills to work on your own initiative, able to prioritise workload and deliver to deadlines. You will have good IT and mathematical skills and be comfortable writing reports, using Excel and adapting to computer modelling and analysis packages. A full driving licence is required.

WE OFFER

A competitive salary, an open, friendly office environment in central Bristol, hands-on training from experienced professionals and the opportunity to develop skills in dealing with a varied selection of projects. The role will include office and site work. This is not a home-based role, although hybrid working can be considered.

If you are interested, please send us your CV with a covering email to david@ionacoustics.co.uk .
No agencies.
