

Role Overview

We are looking for someone to join our Acoustics & Air Quality Service as an Acoustic Consultant or Senior Acoustic Consultant. We will also consider a graduate with at least one year of acoustic consultancy experience. We are looking to hire in Manchester but will also consider London for the Senior Acoustic Consultant position.

What you'll be doing

- You will get involved in specialist technical work such as noise & vibration onsite monitoring, modelling, analysis and reporting.
- You will be involved in Environmental Acoustics projects from day one and will have the opportunity to work on projects from proposal stage through to completion.
- You will help support our clients on projects both locally and throughout the UK as required, finding commercial solutions to complex environmental issues.
- You will work on many different types of projects, including new road and rail schemes, new residential settlements, high-rise city centre buildings, retail developments, renewable energy projects, and commercial / industrial developments.
- You will be an integral part of our Acoustics & Air Quality Service at BWB and may also have the opportunity to work on air quality projects if desired.
- You will have the opportunity to get involved in Environment Group and BWB initiatives.
- **The Senior Acoustic Consultant will also have the opportunity to mentor junior team members.**

What you'll bring

- A relevant Acoustics related degree / qualification.
- **At least two years of Environmental Acoustics related Consultancy experience** for the Acoustic Consultant role and at least four years of Environmental Acoustics related Consultancy experience for the Senior Acoustic Consultant role – candidates will not be considered without prior consultancy experience.
- Demonstrable environmental noise survey experience and experience of noise modelling (experience of CadnaA noise modelling software is desirable).
- Experience of project management and project financial management is desirable.
- Keen to share your ideas about how we can do things better.
- Enthusiastic and ambitious to learn and progress.
- A problem solver with strong oral and written communication skills.
- A highly organised individual, with the ability to meet deadlines, prioritise work and react calmly and proactively in a range of situations.
- The ability to work well within a team and work individually.
- Junior team member mentoring experience is preferable.
- Right to Work and live in the UK.
- A clean UK driving licence and willingness to drive for work purposes. Your own car or access to a car (with business insurance) is desirable.
