

**WE'RE HIRING...**

# Acoustics & Airtightness Site Technician

**Join our 100% employee-owned, award-winning company!**

**Location:** Based at our Buxton office, with UK-wide travel required

**Salary:** £ 25,000 - £28,000 p.a. + 8% pension contribution

We're seeking a motivated individual to conduct acoustic measurements, testing, and surveys at client sites across the UK, as well as air tightness testing. Full training is provided - prior experience is not essential, but would be an advantage.

## KEY RESPONSIBILITIES:

- Conduct UKAS-accredited sound insulation testing and ATTMA-certified air tightness testing
- Perform noise and vibration surveys, and data processing
- Liaise with clients and coordinate with stakeholders
- Project planning, scheduling, quotations and writing reports.

## REQUIREMENTS:

- Bachelor's degree in Acoustics, Audio engineering, other STEM subject or related field, OR hands-on experience
- Valid UK driving license (essential)
- Excellent communication and organisational skills
- Attention to detail and clear report writing abilities.

## WORKING CONDITIONS:

- Regular UK-wide travel (van provided) with occasional overnight stays
- 37.5 hrs / wk, flexible hours including some evenings & occasional weekends
- Work from home option when convenient
- No paid overtime; TOIL system for unsociable hours.

## WE LIKE:

Solving practical problems, developing new solutions and equipment, learning new things, industry-leading research and dissemination, straight forward reports.

## WE DON'T LIKE:

Bureaucracy, formal office environments, inflexible rules.

**Closing date:** 12th May 2025. No agencies please.
