

# Hear that?

## It's the sound of opportunity abroad for a Junior Acoustic Consultant

*Located 45 minutes from downtown Vancouver, BAP Acoustics is a rapidly expanding acoustic consultancy delivering industry-leading services and solutions to clients across Western Canada and beyond. The Greater Vancouver area boasts unparalleled natural beauty, a temperate climate, eco-friendly living, and a wealth of leisure options for outdoor enthusiasts.*

### As the newest member of our team, you'll bring:

- a relevant acoustics degree, or an engineering degree coupled with the Institute of Acoustics (IoA) Diploma
- 1 to 3 years of consulting experience
- good verbal and written English
- a full driving licence
- demonstrable proficiency in:
  - CadnaA
  - EASE/CATT/ODEON
  - sound insulation testing
  - environmental noise monitoring
  - reverberation time measurement and control

HVAC noise prediction skills would be beneficial.

### The scope of our work includes:

- **Building acoustic design:** residential development, office buildings, hospitals, schools, university buildings, prisons, houses of worship, and fitness studios
- **Environmental noise assessment:** roads, rail, heliports, shooting clubs, and construction sites
- **Industrial noise control:** waste water treatment plants, saw mills, port facilities, electricity and gas infrastructure
- **Auditoria:** university facilities, music academies, schools, and community

We offer a competitive salary and relocation allowance, as well as a friendly and supportive environment. **Please send your CV and cover letter to Mark Gaudet, [mark@bapacoustics.com](mailto:mark@bapacoustics.com).**
