

Recruitment Solutions: **Acoustics | Noise | Vibration**

Since 2004, MSA has provided a bespoke recruitment service to clients and candidates working in Acoustics, Noise and Vibration. As a niche recruiter in this sector, we have developed a comprehensive understanding of the industry enabling us to provide candidates with a wealth of information and a consultative approach to securing your next career move. We are currently recruiting for the positions listed below – and for a comprehensive list of our current vacancies, please visit: www.msacareers.co.uk/vacancies

Offshore Wind / Environmental Noise specialist | Location flexible | up to £55,000 + Benefits

My client is looking for a technically robust and experienced Acoustician with a demonstrable track record of delivering large scale EIAs and Offshore Wind projects. The role has excellent scope for progression as the successful candidate will be Noise discipline lead, reporting to the Director of Environment within this forward thinking multi-discipline consultancy. You will be supported by existing team members at Consultant, Senior and Principal level. You will ideally be located in the North of England, but with offices across the UK there is some flexibility on your location. You will be a Corporate Member of the IOA and ideally have extensive experience of using SoundPLAN modelling software.

Acoustic Consultants | London Bridge | £30,000 to £40,000 + flexible benefits package

This employee owned independent dedicated acoustic consultancy are looking to recruit Acousticians with between 2 and 5 years' experience in consultancy. You will have the privilege of working with some top people in a professional yet relaxed environment on a fantastic and varied range of projects: Architectural & Building Acoustics design; Environmental Noise Assessment / EIA schemes; Airport noise management; construction noise assessment and mitigation. Need a new challenge in a great working environment? This is the opportunity for you!

Building Acoustics Consultant: | Belfast | up to £30,000 + Benefits

This role represents a fantastic opportunity to work for a most respected independent firm of Acoustic Engineers from their Belfast office. Working alongside the office Principal, you will be involved in some prestigious projects in the area of Architectural & Building Acoustics design. Candidates should ideally have around 2+ years experience of acoustic consultancy including managing building acoustics projects, working as part of a design team and attending client meetings.

Consultant-Senior Acoustic Consultant | Manchester Northern Quarter | to £38,000

Our client is looking for an Acoustician with around 3 to 6 years experience in consultancy to join their friendly team in Manchester's Northern Quarter. You will work on a range of projects from Environmental Noise surveys, new education facilities, detailed Acoustics design of performing spaces, retail and entertainment facilities. Demonstrable experience of writing clear and concise reports is key for this role. You will ideally hold MIOA membership. A full UK driving licence is essential.

Graduate Acoustic Consultant: | Snowdonia | up to £24,000 + Benefits

Are you an Acoustics Graduate who likes the outdoors life away from the big city? Do you enjoy outdoor pursuits such as climbing, surfing and cycling? Are you looking for a challenging and interesting job in the field of Acoustics? If the answers to the above are YES (and you have strong Maths & Physics skills, plus a full UK driving licence!) then please get in touch! Our client is looking for a bright Acoustics graduate to assist in the delivery of Noise Consultancy services to clients across the West of the UK and in Ireland.
