

Recruitment Solutions: **Acoustics** | **Noise** | **Vibration**

Since 2004, MSA has provided a bespoke recruitment service to clients and candidates working in Acoustics, Noise and Vibration. As a niche recruiter in this sector, we have developed a comprehensive understanding of the industry enabling us to provide candidates with a wealth of information and a consultative approach to securing your next career move. We are currently recruiting for the positions listed below – and for a full list of our current vacancies, please visit: www.msacareers.co.uk/vacancies

Senior Electro Acoustics Consultant | Manchester or London | up to £77,000 inc. Car allowance

Our client is looking to recruit a Senior Electro Acoustics Engineer with 5+ years of work experience to join their team in Manchester or London. The successful candidate will play a pivotal role in delivering innovative solutions to clients within the sports and entertainment sectors. You will lead project teams to successful project completion, ensuring projects are delivered with technical excellence meeting quality standards, deadlines and financial targets.

Skills & experience sought:

- Experience in Sports & Entertainment would be highly advantageous
- Degree in Engineering Acoustics, Electro-Acoustics or related disciplines such as Civil or Structural Engineering, Mechanical Engineering, Building Services Engineering, Architecture, combination degrees of the former.
- Professionally registered (CEng, IEng) with the Engineering Council UK or equivalent body is advantageous
- Full corporate membership of the Institute of Acoustics is expected
- Experience with design tools, including Revit, Rhino, Grasshopper and Dynamo

Technical Sales specialist (Acoustics) | Leeds | up to £50,000 OTE (uncapped)

Our client is a leading UK specialist in soundproofing and acoustic solutions. They create quieter, more comfortable environments across residential, commercial, and industrial sectors. They are looking for a Technical Sales Manager to join their growing team. The ideal candidate will combine technical understanding with commercial acumen and exceptional communication skills to effectively present solutions to clients and drive sustainable business growth.

Qualifications & Experience sought:

- Proven track record in technical sales, ideally within acoustics or construction
- Strong ability to interpret architectural drawings and specifications, visualising and communicating complex technical details with clarity and confidence.
- Exceptional communication and relationship-building skills, capable of engaging confidently with clients, consultants, and contractors at all levels.
- A self-motivated, results-driven mindset, combining strategic thinking with hands-on initiative to identify opportunities and close business effectively

The role will be office based with meetings / site visits – so the successful candidate must live in a commutable distance of Leeds.

Acoustic Consultants | East Anglia | up to £38,000

We are working with a well established business who have an outstanding reputation within the world of acoustic consultancy. They currently have openings for 2 x Acoustic Consultants to join their team.

They work on a wide variety of projects (both Buildings and Environmental) across all sectors (performing arts / schools / residential / offices). Candidates wishing to be considered should ideally have 2+ years' relevant experience and a Full UK driving licence. Knowledge of acoustic modelling software such as CADNA and CATT-Acoustic would be an advantage.

You should have a relevant first degree or post-graduate qualification (e.g. Diploma in Noise & Acoustics), such form of IOA membership and good writing skills.

Senior / Principal Acoustic Consultant | Berkshire | up to £50,000

Our client is an independent acoustic consultancy who are seeking to appoint an Acoustic Consultant at Senior – Principal level to work as part of our established acoustics team in Berkshire. The successful candidate will have an excellent opportunity to contribute to both the technical and commercial work of their acoustics business. You will be working on a variety of projects including: Power station noise / noise nuisance complaint investigations / noise from sports activities / assessing a new facility for an F1 racing team, assessing noise and vibration from road and rail sources / vibration from an underground limestone mine / radiated noise from borehole pumps in the Caribbean! Candidates should have a relevant first degree or post-graduate qualification (e.g. Diploma in Noise & Acoustics), MIOA, Good technical knowledge and report writing skills, A minimum of 5 years' relevant experience and a Full UK driving licence

Acoustic Test Engineer (SITs/ PCT) | Midlands based from home | up to £33,000 + Benefits package

Acoustic Test Engineer sought to operate on residential building sites across the Midlands. This position will be well suited to someone who values long-term work stability and enjoys site testing. **There will be NO weekend or evening testing work**

The role will involve -:

- Driving to and from building sites to undertake Sound Insulation and Pre-completion testing
- Complying with building site health & safety requirements / Interacting with workers onsite
- At-home data-processing, report-writing, and self-checking

Essential skills and qualifications -:

- MIOA membership; PCT experience (ideally ANC / UKAS accredited)
- Ideally A-level maths (degree not essential), or strong GCSE Maths grade
- Ideally holds CSCS card holder and has experience of operating on building sites
- Full UK driving licence and own vehicle (mileage paid – vehicle can be provided on occasion)

Location -: ideally within the following postcodes: WR, WS, ST, WV, B, TF, DY or CV

Senior / Principal Acoustic Consultant | Sheffield region | up to £60,000 (PART-TIME CONSIDERED)

A long established independent acoustic consultancy are seeking to recruit a technically outstanding Acoustic consultant to join them at their offices near Sheffield. We are looking for a candidate who can demonstrate the following -:

- 8+ years experience working in Acoustic Consultancy
- Experienced in Building Acoustic design
- Technically outstanding with deep knowledge of all relevant standards
- Demonstrable experience of writing technically robust and detailed reports
- Full Member of the IOA

Acoustic Engineer | Slough / Windsor region | up to 35,000 DOE

We have an incredibly interesting and varied role for an Acoustic Engineer who enjoys working across multiple teams and disciplines where no two days are the same! The role will involve working across various sites in the South of England (and sometimes beyond) testing and analysing a range of noise sources from buildings services plant, and other equipment within buildings. You will write proposals and reports on the back of your findings to provide pragmatic and effective solutions for clients. In addition to acoustic testing, you will also have the opportunity to engage in other technical aspects that the company provides services for including Air Testing, sound absorption testing, thermal testing etc., as well as acoustic testing in the on-site laboratory. Who are looking for.....

- Ideally, a graduate with a couple of years experience in acoustic testing / consultancy who is an Associate Member of the IOA and wants a change from traditional consultancy!
- But we will consider a fresh graduate who has a relevant degree (Acoustics /Physics / Mechanical Engineering) and has a very keen interest in Noise – and is a quick learner!

All candidates must have a full UK driving licence and reside in the Berkshire / Hampshire / Surrey / Oxfordshire areas.
