

Recruitment Solutions: **Acoustics | Noise | Vibration**

Since 2004, MSA has provided a bespoke recruitment service to clients and candidates working in Acoustics, Noise and Vibration. As a niche recruiter in this sector, we have developed a comprehensive understanding of the industry enabling us to provide candidates with a wealth of information and a consultative approach to securing your next career move. We are currently recruiting for the positions listed below – and for a comprehensive list of our current vacancies, please visit: www.msacareers.co.uk/vacancies

Senior Consultant (Building Acoustics Design) | Watford or Tunbridge Wells | £40,000 + Car

Our client is looking for an Acoustician who enjoys office-based Building Acoustics design work. They employ a team of Testers and BREEAM assessors nationwide, and are now looking for a skilled individual to support the Acoustics discipline lead. Working on a range of residential and commercial schemes, candidates will ideally have experience of using INSUL, Bastian and/or CADNA. You will have detailed knowledge of the construction sector and Building Acoustics design (curtain walls / slab edge design). A portfolio of schools work within your resume would be an advantage. The company operates a flexible working policy with excellent scope for progressions through the business.

PA/VA / Building Acoustics Engineer | Barbican, London | to £40,000 + flexible benefits package

This is an outstanding opportunity to work for an award-winning international Consulting firm within their growing dedicated Acoustics division. Working on a range of prestigious projects including PAVA design for London Underground, High value residential design, MoD rehabilitation centres – you will deliver detailed Building Acoustics design work alongside a team of talented Acoustic Engineers. Although we are ideally looking for a candidate with 5+ years' experience, applications are welcome from candidates with around 3+ years' experience and possess detailed knowledge of current UK standards applicable to building acoustics.

Consultant/Senior Acoustician | Brighton | £28,000 to £42,000 + Benefits

This role represents an excellent opportunity to work for an independent Environmental Consultancy specialising in residential & industrial development projects across the UK. They are seeking to recruit dynamic and ambitious Acoustic Consultant who can assist the Principal Acoustician in the growth of their Brighton Noise division. This position will suit a good all-rounder who can manage clients, projects and – most importantly – write clear and concise final reports. Experience of using CADNA/A would be beneficial.

Technical Lead (Building Acoustics Engineering) | Central London | to £70,000

Are you an experienced Acoustic Consultant with a deep technical knowledge of building acoustics and noise control engineering? Do you enjoy technical project delivery, as opposed to business development targets and recruiting team members? If so, then this is a fantastic opportunity to secure a fulfilling role using your technical expertise. You will work within a growing Acoustics team that deliver work across the education, leisure and retail sectors for a diverse and highly respected client base. Your main function will be to supervise and oversee the production of technically excellent project work. As a technical expert in the field of building acoustics engineering, you will have significant experience across a variety of building sectors, along with experience in PAVA design. You will be a Corporate Member of the Institute of Acoustics (MIOA) and a Chartered Engineer (CEng).

Graduate Acoustic Consultant: | Snowdonia | up to £24,000 + Benefits

Are you an Acoustics Graduate who likes the outdoors life away from the big city? Do you enjoy outdoor pursuits such as climbing, surfing and cycling? Are you looking for a challenging and interesting job in the field of Acoustics? If the answers to the above are YES (and you have strong Maths & Physics skills, plus a full UK driving licence!) then please get in touch! Our client is looking for a bright Acoustics graduate to assist in the delivery of Noise Consultancy services to clients across the West of the UK and in Ireland.
