

Recruitment Solutions: **Acoustics | Noise | Vibration**

Since 2004, MSA has provided a bespoke recruitment service to clients and candidates working in Acoustics, Noise and Vibration. As a niche recruiter in this sector, we have developed a comprehensive understanding of the industry enabling us to provide candidates with a wealth of information and a consultative approach to securing your next career move. We are currently recruiting for the positions listed below – and for a comprehensive list of our current vacancies, please visit: www.msacareers.co.uk/vacancies

Graduate Acoustic Consultant: | Twickenham | up to £25,000 + Benefits

My client is seeking to hire a talented and enthusiastic Graduate Acoustic Consultant who possesses a degree in Acoustics (or related subject), outstanding writing skills and a full UK driving licence. You will receive training to become a good all-round consultant. Your role will involve site survey work for a range of projects (Building Acoustics / hotels / education / healthcare / offices / environmental noise surveys), in addition to report writing, noise modelling using ODEON, Insul and SoundPlan and consultancy work.

Consultant-Senior Acoustic Consultant | Wilmslow, Cheshire | to £35,000 + 2 days home working

Our client is looking for an Acoustician with a minimum of 1+ years experience in consultancy to join their friendly team in Cheshire. You will work on a range of projects from Environmental Noise surveys, new education facilities, Energy & industrial, rail and road. Experience of writing clear and concise reports is essential. Use of SoundPlan would be an advantage. You will ideally hold AMIOA membership. A full UK driving licence is essential. There is flexibility to be based from home 2 days per week in this role.

PA/VA / Building Acoustics Engineer | Barbican, London | to £40,000 + flexible benefits package

This is an outstanding opportunity to work for an award-winning international Consulting firm within their growing dedicated Acoustics division. Working on a range of prestigious projects including PAVA design for London Underground, High value residential design, MoD rehabilitation centres – you will deliver detailed Building Acoustics design work alongside a team of talented Acoustic Engineers. Although we are ideally looking for a candidate with 5+ years' experience, applications are welcome from candidates with around 3+ years' experience and possess detailed knowledge of current UK standards applicable to building acoustics.

Senior Consultant (Building Acoustics Design) | Watford or Tunbridge Wells | £40,000 + Car

Our client is looking for an Acoustician who enjoys office-based Building Acoustics design work. They employ a team of Testers and BREEAM assessors nationwide, and are now looking for a skilled individual to support the Acoustics discipline lead. Working on a range of residential and commercial schemes, candidates will ideally have experience of using INSUL, Bastian and/or CADNA. You will have detailed knowledge of the construction sector and Building Acoustics design (curtain walls / slab edge design). A portfolio of schools work within your resume would be an advantage. The company operates a flexible working policy with excellent scope for progressions through the business.

Graduate Acoustic Consultant: | Snowdonia | up to £24,000 + Benefits

Are you an Acoustics Graduate who likes the outdoors life away from the big city? Do you enjoy outdoor pursuits such as climbing, surfing and cycling? Are you looking for a challenging and interesting job in the field of Acoustics? If the answers to the above are YES (and you have strong Maths & Physics skills, plus a full UK driving licence!) then please get in touch! Our client is looking for a bright Acoustics graduate to assist in the delivery of Noise Consultancy services to clients across the West of the UK and in Ireland.
