

Recruitment Solutions: **Acoustics | Noise | Vibration**

Since 2004, MSA has provided a bespoke recruitment service to clients and candidates working in Acoustics, Noise and Vibration. As a niche recruiter in this sector, we have developed a comprehensive understanding of the industry enabling us to provide candidates with a wealth of information and a consultative approach to securing your next career move. We are currently recruiting for the positions listed below – and for a full list of our current vacancies, please visit: www.msacareers.co.uk/vacancies

Senior Audio Visual Designer (Entertainment & Sports) | London | up to £58,000 + Benefits

Our client has a fantastic opportunity for an experienced Audio Visual Designer to join their multi-discipline practice in their London studio.

You will be working with a brilliant team of creative and technical designers on some incredible projects in the entertainment and sports sectors. We are looking for someone with experience of leading Audiovisual designs for unique venues, venue design projects, and has a passion for associated technical systems and technology.

Candidates will ideally have experience in AV infrastructure design (data / power / containment requirements), knowledge of broadcast systems, knowledge of specialist displays, interactive AV, immersive audio, project mapping – along with production of detailed design drawings and system schematics

Building Acoustic Consultants | Birmingham, London or Bristol | £40,000 to £50,000

Our client is a highly successful practice of consulting engineers who have been established for almost 50 years. They have long term relationships with some of the biggest architects, contractors and institutions within the UK and have grown considerably over the last 5 years. This is an opportunity to be part of the next phase of the company's growth and to join a forward thinking, dynamic acoustic team whose core values are centred on staff, clients, quality and sustainability.

Applicants should have at least 4 years' experience in acoustic consulting and require experience in the following:

- Architectural building acoustics in schools, healthcare and residential developments
- noise surveys and on-site testing in buildings / Report writing, preparing calculations and processing noise survey data
- Acoustic modelling with modern software packages
- The planning process and preparation of reports for Applications and to address Conditions
- Guidance documents such as BS 8233, BS4142, PropPG, HTM 08-01, BB93, AVO guidance
- MIOA and appropriately qualified holding an acoustics or science based degree / IOA Diploma

Schools Design: Senior Acoustic Consultant | London / South of England | up to £55,000 + share scheme

Acoustic conditions in the classroom can have a significant influence on educational outcomes. Our client is an established Acoustic consultancy shaping national policy and providing practical design advice for acoustically effective teaching and learning environments.

They help architects, designers and developers deliver great sounding learning spaces – providing acoustic design advice for teaching environments of every shape and size. They have an outstanding opportunity for a Senior Acoustic Consultant to assist in delivering schools projects.

Candidates are likely to have a minimum of 5 years post graduate consulting experience, with a significant project portfolio linked to schools of design. You will possess a relevant degree and hold Corporate Membership of the Institute of Acoustics. The role will offer hybrid working (3 days in the office / 2 days from home). Candidates will reside in the South East of England in a commutable distance of London / Croydon / Sussex areas.

To apply for these positions please e-mail your CV in complete confidence to: info@msacareers.co.uk
