

# Intermediate Acoustic Consultant Position

## About Scotch Partners

Scotch Partners are a London based design consultancy offering expertise in building services engineering, sustainability, energy and building acoustics consultancy. We work across a broad range of built environment projects from commercial office refurbishments in listed buildings to new build science parks and everything in between.

The culture of the practice is founded upon respect for people and trust. We are committed to creating a great and inclusive working environment where the best minds in the industry will flourish.

We believe in delivering sustainable and efficient designs in order to create the highest quality buildings and internal environments. To do so, we are collaborative and client-focused providing considerable combined experience in building services design engineering, modelling, energy, sustainability, wellness and acoustic consultancy services. This philosophy is integral to our service.

We are also a sociable bunch who enjoy doing activities as a team. We have a busy calendar of sports and social activities organised by our colleagues and we are very proud of our house band, Paper Jam, who are always on the look out for more talented musicians!

## About the Role

We are seeking a motivated intermediate acoustic consultant to join the team, ideally with between 3 to 5 years experience, and comfortable project managing their own projects.

You will be an integral part of the team and be expected to actively contribute to our success. Your responsibilities will include planning and undertaking acoustic surveys at locations throughout the UK, data analysis, and technical reporting. You will also be client-facing, presenting acoustic advice to architectural design teams and colleagues. We will fully support your development, and can expect assistance from both the senior level and junior level, as necessary.

The job will initially be office-based in Farringdon, with opportunities for remote working as you develop.

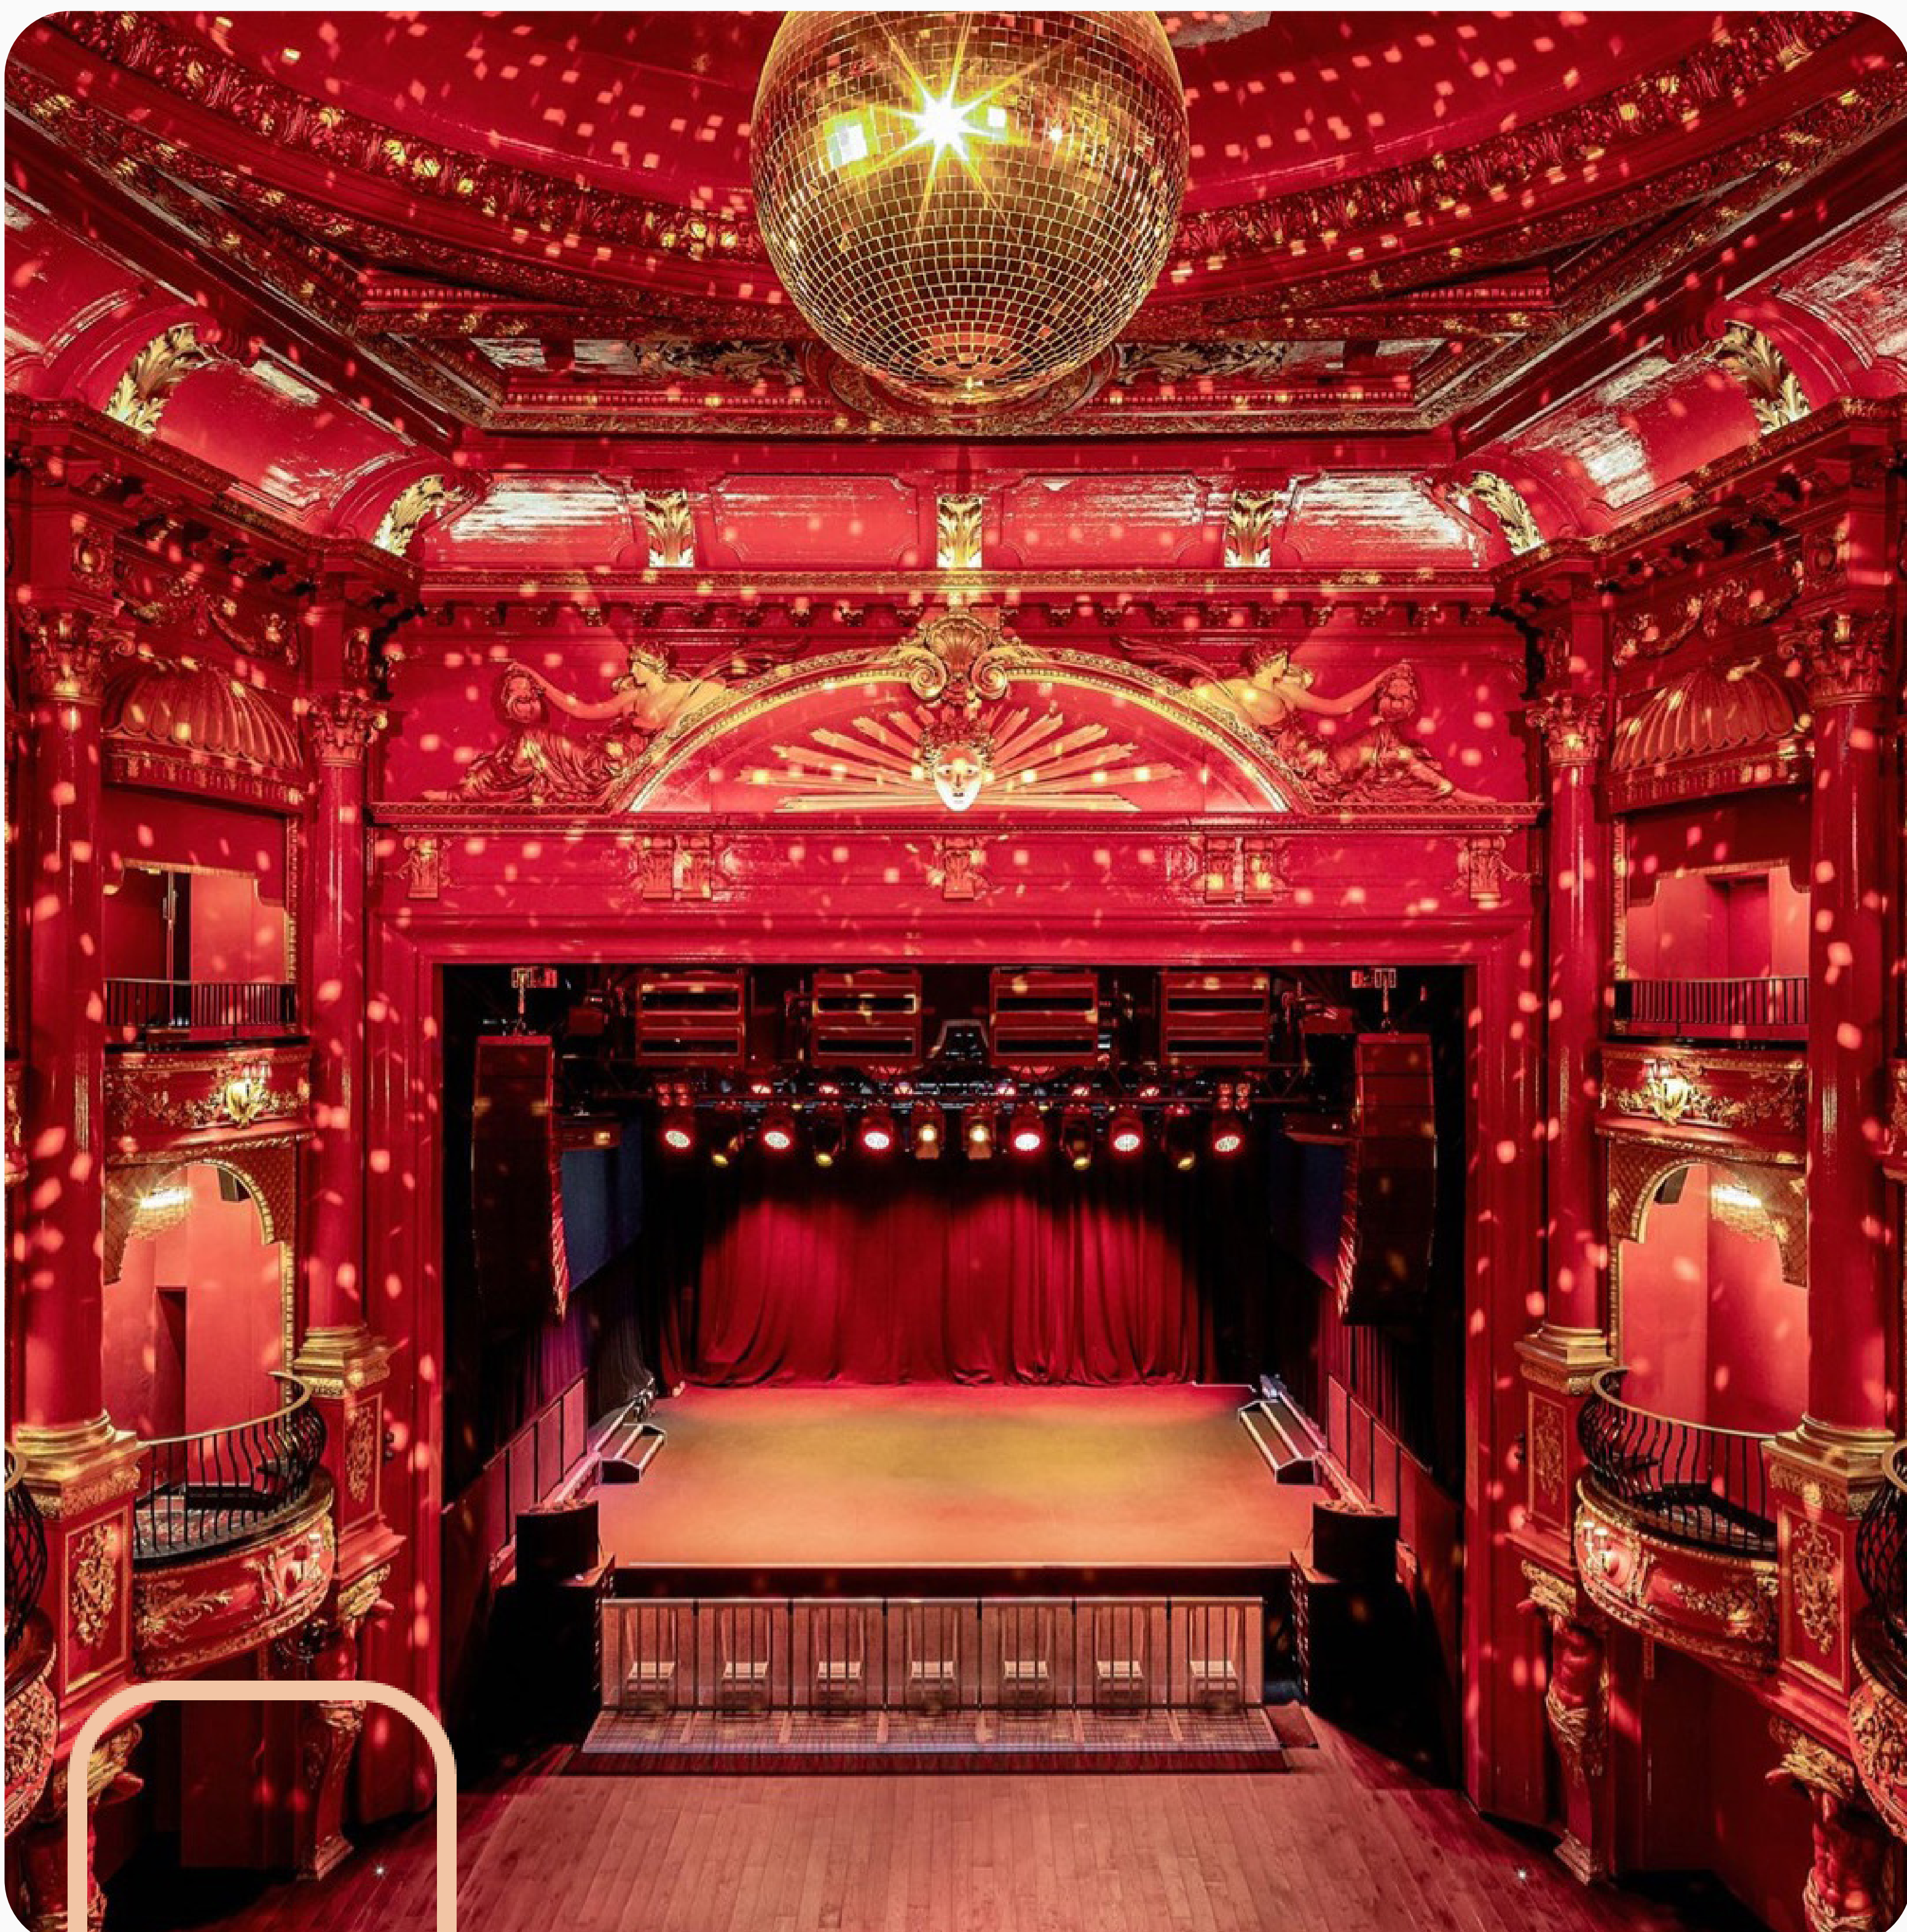

## Desirable Skills:

- An undergraduate degree
- Willingness to travel around the UK
- Willingness to occasionally work outside of normal office hours and stay away from home
- Technically minded with good maths skills
- Excellent writing and communication skills in English
- Full UK driving license

## Benefits:

- Competitive salary and benefits package including 28 days paid holiday, employer pension scheme, private medical insurance and employee assistance programme and biannual profit share
- Flexible working arrangements including hybrid working
- Continuous professional development opportunities including support to achieving IEng/CEng status
