

## Senior Acoustic Consultant/Associate Director (Acoustics)

Wave Dynamics Acoustic Consultants ([www.wdacoustics.com](http://www.wdacoustics.com)) are seeking an Associate Director or Senior Acoustic Consultant to join our acoustics team. The role will be based in the UK and will be primarily focused on work within the Greater London Area. We are seeking an experienced and driven Associate Director / Senior Acoustic Consultant to join our dynamic team. This role offers an exciting opportunity for a seasoned professional with expertise in both building and environmental acoustics, who is ready to take on a leadership role with a focus on business development and client acquisition.

### About Us

Wave Dynamics are a market leader in the delivery of acoustic consultancy services with offices in London, Dublin, Wexford and Cork. We work on milestone projects in Ireland and the UK across both the building acoustics and environmental sectors.

We are a dynamic and progressive acoustic consultancy, and we are seeking to expand our team to assist with our current workload and grow our UK presence. This role is an opportunity for an experienced acoustic consultant (10 years +) to join a growing consultancy at its early stage to help grow and shape the future of the company.

### What We Can Offer To You

This role is an opportunity to join the company at early stage which will afford you the opportunity to develop and have an influence on the direction of the business. A competitive package is on offer for the right candidate which will include:

- Competitive salary based on experience
- Pension Contribution (on completion of probation period)
- Annual Reviews
- Tailored CPD and Training Plan
- Permanent position
- Expenses package

### About the Role

- This role is at Senior/Associate Level.
- Lead and manage acoustic projects across building and environmental sectors, ensuring high-quality deliverables and client satisfaction.
- Drive business development efforts, actively pursuing and securing new client relationships to expand our market presence.
- Provide technical guidance and mentorship to junior consultants, fostering a collaborative and high-performing team environment.
- Engage with clients to understand their needs and deliver innovative acoustic solutions that meet project objectives.
- Contribute to strategic planning and company growth, with the potential to progress into a Director position.
- Supporting Junior consultants with calculations, modelling and reporting as required.

### Minimum Requirements

- Proficiency in Microsoft Office, SoundPlan (or equivalent), INSUL, ODEON, EASE, and related software.
- Proven experience in building and environmental acoustics with a successful project management track record.
- Demonstrated ability to develop business opportunities, build strong client relationships, and drive revenue growth.
- Excellent leadership and communication skills, with the ability to inspire confidence and motivate teams.
- Solid technical expertise in acoustic analysis, noise impact assessments, and compliance with regulations.
- Full driver's license and the ability to work independently as well as collaboratively.
- Experience in renewable energy projects is an advantage.

### Desired Qualifications

- Undergraduate or postgraduate degree in acoustics or a related engineering discipline; IOA post-graduate diploma preferred.
- Minimum of 10 years of experience in acoustics.
- Membership in the Institute of Acoustics (MIOA).

### Apply Today

To apply, please send your CV to Barbara at [info@wdacoustics.com](mailto:info@wdacoustics.com). All applications will be handled with strict confidentiality. If you would like to discuss the role directly with one of our directors, call **+44 (0)20 8157 2967**.
