

Principal Environmental Consultant/Associate Director

Anderson Acoustics is an environmental consultancy providing acoustics, noise, vibration, air quality and community engagement services to clients in the construction, planning and aviation sectors. We work on projects large and small, ranging from major infrastructure projects like Heathrow Expansion, HS2 and Thames Tideway to small projects with local businesses, architects, planners and builders.

We are looking to recruit a Principal Environmental Consultant with 15+ years' experience to play a significant leadership role in our aviation noise team and wider company. We are an employee-owned company and we directly benefit from our own success, making us more committed, innovative and transparent in our working practices. It is our strong belief that a happy, autonomous and self-motivated team of co-owners delivers the highest level of service quality and client value. This is a new and senior role and will make a significant contribution to defining the company strategy, delivering targeted growth, supporting our unique culture and developing our team.

Responsibilities

- Manage the delivery of EIA projects from a technical, financial, quality and client satisfaction perspective
- Support the Associate Director of Airports on major projects requiring ES and DCO due-process
- Analyse data and turn it into Insight
- Produce Environmental Statement (ES) Chapters
- Be the company expert on relevant EIA and DCO legislation, policy and guidance
- Understand the Development Consent Order (DCO) process and provide client guidance and input to meet the statutory requirements
- Manage team members in the technical preparation of ESs
- Lead or participate in client meetings
- Liaising with planning authorities and stakeholders
- Develop an EIA Practice outside of the Airports sector
- Manage, mentor and develop team members
- Manage and deliver client reports

Required Skills

- Highly motivated and able to work with limited direction
- Ability to apply skills, experience and mindset to new opportunities and sectors
- Working on own initiative
- Strong interpersonal skills with clients and colleagues
- Good team working skills
- Comfortable in a flat, matrix organisation
- Commercially aware
- Understanding a range of technical environment disciplines
- Track record of successful client management
- Excellent communication and networking skills
