

Do you echo our values?

At Sandy Brown, we are leaders with an excellent reputation and a world-class independent acoustic consultancy. We strive to be the best, so we need the best acoustic consultants. That is why you should join us. We are currently looking for engineers to join our Belfast office.

We have offices across the UK

We have more than 50 technical staff spread throughout offices in London, Manchester, Edinburgh, Birmingham and Belfast working on projects nationally and internationally.

World leading companies trust us

What do Bloomberg, Apple, Google and Amazon have in common? We've delivered tailored, top-quality buildings, studios and auditoria acoustic designs to each of them. They told us their aspirations and we helped turn them into reality. Since we were founded in 1969, we've completed over 8000 cross-sector projects. Our key clients also include leading architects, developers, engineers as well as many global blue chip companies. We have the experience and the portfolio that makes us leaders in our field.

We make our client's visions possible

We've delivered some of the most innovative, sustainable and forward-thinking solutions in some of the world's most iconic landmarks from The Science Museum to The Royal Albert Hall, the UK Supreme Court and Battersea Power Station.

We work closely with our clients and ensure that they understand how our work will add value to their vision while being conscious of time, cost and the impact on the environment.

Does this sound attractive to you?

To apply for an acoustic engineer role, you should:

- Hold a relevant acoustics degree, or an engineering degree coupled with the Institute of Acoustics (IoA) Diploma
- Be working toward membership with the Institute of Acoustics (IoA)
- Possess a good technical understanding of acoustics
- Have relevant building acoustics experience.

What we offer you

- A competitive salary and benefits
- Remote and flexible working options
- A friendly and supportive environment
- The chance to work on ground-breaking projects
- The opportunity to develop your knowledge and experience.

If this sounds good, then email your CV and cover letter to Audrey Raymond at audreyr@sandybrown.com
