

# RISE ABOVE THE NOISE

## *JOIN US AS A SENIOR ACOUSTICAL CONSULTANT*

**BKL CONSULTANTS LTD.** is looking for a Senior Acoustical Consultant to join our team. While the role is based in Vancouver, Canada, we are open to remote candidates who can work within Pacific Time Zone hours. This position offers a unique opportunity to contribute to BKL's ongoing success while helping shape the acoustical consulting landscape in Vancouver—a city with a rapidly evolving market and a growing demand for acoustical expertise.

Since 1966, BKL has been a trusted provider of acoustical consulting services. As a successful and well-established small business, we offer excellent opportunities for career growth and advancement. Our team is composed of dedicated professionals who foster a collaborative and supportive workplace culture. We are well-respected in the architectural and engineering community, with a portfolio that includes award-winning projects for major healthcare facilities, prominent universities, and other institutions.

We are driven by our vision: the role of acoustics should be embraced in all the places we work, live, and play. This role gives you the chance to be part of our pursuit of this vision, shaping the acoustical landscape not only in Vancouver but in other communities and industries that value better sound environments.

As a senior member of our team, you will take on high-profile projects that will shape the acoustical landscape of Vancouver. Your expertise will be pivotal in crafting innovative solutions in

critical industries such as healthcare, transportation, commercial, and residential. In addition to managing technical projects, you will play a key role in teaming to mentor junior consultants and engaging with AHJs and other industry leaders who are eager to strengthen acoustical practices and standards.

We believe acoustics are important! If you are passionate about acoustics and enjoy working with a close-knit team, we would love to hear from you. This role is perfect for someone with strong technical engineering expertise and communication skills who is looking to make a meaningful impact at a growing company.

Join us and become a key player in our ongoing success!

### **WHY VANCOUVER?**

Vancouver offers a growing, dynamic acoustics market with fewer regulatory constraints compared to places like Europe or Australia, where acoustical policies are much more established. This creates a rare opportunity to be at the forefront of shaping policy and improving acoustical standards in a developing market. AHJs are actively seeking expertise to improve acoustical practices, creating an ideal environment for a professional looking to influence the direction of the industry.

On top of the professional opportunities, Vancouver boasts a world-class lifestyle with access to outdoor activities like hiking, skiing, and exploring stunning natural landscapes, all within a vibrant, multicultural city.

## SENIOR ACOUSTICAL CONSULTANT

### WHAT YOU'LL DO

- **LEAD PROJECTS:** Take full ownership of project lifecycles, from proposal preparation to data analysis and report delivery, while managing client expectations and deadlines.
- **COLLABORATE AND MENTOR:** Lead and mentor a team of junior consultants, while working closely with BKL's engineers, administrators, and other professionals to meet project goals.
- **ADVOCATE FOR ACOUSTICS:** Represent BKL at meetings and public forums, acting as an advocate for the promotion of acoustics in both private and public sectors.
- **THOUGHT LEADERSHIP:** Write and present technical reports, publish research, and lead seminars to help shape the future of acoustics in Western Canada.

### WHAT YOU'LL BRING

- A minimum of 8 years of consulting experience in acoustics, with a focus on building acoustics.
- A Bachelor's or Master's degree in Engineering, Acoustics, or a related field.
- Professional Engineering designation (P.Eng. or equivalent).
- Excellent verbal and written communication skills in English.
- The ability to handle multiple projects, prioritize tasks, and meet deadlines while maintaining a high level of professionalism, flexibility, and diplomacy.
- Strong technical expertise, with a solid understanding of acoustics and the ability to engage with stakeholders to influence policy and practices.
- Experience with acoustical modelling software, test equipment, and methodologies for sound and vibration measurements.
- Familiarity with QA/QC procedures in a consulting environment.

### WHAT WE OFFER

- Annual salary of \$100,000 to \$130,000, with overtime paid at time-and-a-half.
- A generous benefits package, including vacation allowance, retirement savings plan (RRSP) contribution program, full health and long-term disability insurance, and professional association dues.
- Relocation assistance to ensure a smooth transition to Vancouver.
- The opportunity to influence acoustical practices at the local and provincial level in a rapidly growing market.
- A collaborative, supportive team environment that fosters professional growth and career advancement.
- Flexible work schedules and a balanced work-life environment in a world-class city.

If you are a highly motivated acoustical consultant looking for a challenging and rewarding opportunity in a vibrant, forward-thinking city, we encourage you to apply. Vancouver offers the perfect setting for professionals who want to join us in our mission to engineer a better sounding world, while enjoying an exceptional quality of life.
