

## **Acoustic Testing Engineer or Junior Acoustic Consultant**

### **Area – Reading, Berkshire (or flexible within the South of England for the right candidate)**

The Syntegra Group are a specialist planning & multi-disciplinary engineering design consultancy. Launched in 2008, we have a proven track record of providing innovative and commercially viable sustainability and energy efficiency solutions to the built environment across the United Kingdom and internationally.

2019 marks our 11th year of trading and the company is recognised by Goldman Sachs as a fast growth company - currently employing around 35 members of full-time staff at our locations in London, Reading, Tonbridge, Bristol and Leeds. We are members of Construction-line, ANC, ATTMA, CIBSE, Energy Institute and the UK Green Building Council.

We are growing quickly with ambitious growth plans and require a dynamic and ambitious candidate to join our expanding team. You must naturally be a self-starter and good communicator. You must adopt a technically compliant and commercial attitude to projects with a strong focus on client relationship.

The successful candidate will have a good grounding in acoustics and experience of sound insulation testing and building acoustic compliance testing. We offer the potential for you to develop your career further within this interesting and unique organisation. Syntegra offer specialist consultancy and testing services across the education/retail/commercial/residential/industrial and hotel sectors. As you progress in this role, additional services/training will be offered to further your qualifications. The successful candidate should be a member of the Institute of Acoustics (minimum TechIOA or AMIOA) or suitably qualified to achieve IOA membership.

### **Key Responsibilities:**

- Provide sound insulation testing/consultancy services to our clients, predominantly in London and the South East
- Liaising with clients and site agents
- Carrying out of sound insulation tests and noise measurement surveys
- Provide assistance in acoustic design reviews and planning related noise assessments
- Interpret and evaluate results during testing.
- Generating compliance reports and certification
- Identify potential problems and/or weakness with the building design
- Undertake pre-test audits
- Advising clients on appropriate remedial options in the event of failure.
- Be able to self-manage a busy and time-critical schedule of work
- Have excellent communication skills - verbal and written
- Be self-motivated and able to deal with a fast-moving, high pressure environment

### **Essential Knowledge, Skills and Experience:**

- A minimum of 1-2 years undertaking sound insulation testing
- Attained experience to be eligible for ANC sound insulation testing accreditation
- Experience undertaking residential and commercial projects
- Solid competence in requirements for Part E regulations
- Proficient with Microsoft Office

- Possess a full driving license and be prepared to work remotely

**Desirable Knowledge, Skills and Experience:**

- Environmental acoustic measurement experience
- Air testing accreditation and experience

Contract: Full time, permanent position - a three-month probation period applies.

**Perks: Bonus, Training, Monthly internal CPDs, quarterly staff events, Company laptop, pension, 25 days holiday, free fruit in the office, plus more.**

If you are interested in the role, or would like to find out more information, please send your CV and a covering letter to [e.snape@syntegragroup.com](mailto:e.snape@syntegragroup.com)
