

# ACOUSTIC CONSULTANT

**SPECTRUM ACOUSTIC CONSULTANTS LTD** is one of the UK's leading independent firms of acoustic consultants, with a track record of prestigious and challenging projects covering the arts, commercial, leisure, residential and industrial sectors – both in the UK and worldwide.

We are seeking people with approximately 3-5 years consultancy experience to join our dynamic team in Biggleswade, Bedfordshire.

With appropriate experience and training, you will typically run several concurrent small-medium sized projects on your own, and be part of a small team on larger projects. We encourage staff to develop and nurture client relationships and to run their own projects, from initial enquiry and quoting through to project execution, reporting and invoicing; so you will have the opportunity to make a real difference.

In 2023, Spectrum became an Employee-Owned Trust, with common goals of high standards, employee satisfaction and company success shared by all staff.

## APPLICANT CRITERIA:

- We expect the successful applicant will have experience in a combination of environmental, building, industrial and building services acoustics. You will be a good communicator, and be able to work on your own as well as part of a small team.
- You should have a degree with relevant acoustics content or a general engineering degree and the Institute of Acoustics (IOA) Diploma.
- You should have a full driving license and a suitable car.

## BENEFITS OF WORKING AT SPECTRUM INCLUDE:

- Spectrum offer an attractive remuneration package, including a competitive salary, profit sharing bonus scheme, private pension scheme and private healthcare and dental care insurance.
- The successful applicant will receive a relocation allowance and be entitled to 5 weeks paid holiday. Time off in lieu is given to compensate for antisocial hours work.
- Our head office in Biggleswade is a 40-minute train journey to central London, 40 minutes from London Luton airport and 20 miles from the attractive city of Cambridge.
- Staff who prefer to work from home can do so for a few days each week, although initially we would expect them to be in the office for the majority of their time, when not on site.
- Spectrum is an equal opportunities employer and a carbon neutral organisation.
