

ACOUSTIC OPPORTUNITIES

Level: Acoustic Consultant and Graduate

We are growing our acoustics consultancy to complement our already well-established service offering, covering all aspects of planning and building design.

Successful candidates will have:

- > A degree in acoustics
- > Membership of the IOA (at least AMIOA or equivalent)
- > Driving license

Acoustics Consultant

We are looking for an Acoustic Consultant with 2+ years' experience in environmental and building acoustics to support our senior acoustics team and to work with other specialists in a multi-disciplinary working environment.

- > Knowledge of environmental and buildings acoustics
- > Proven capability of delivering projects
- > Ability to attend meetings and discuss service areas
- > Ability to support Graduate Acousticians
- > Good communication, presentation skills and report writing

Graduate in Acoustics

We are looking for an enthusiastic Graduate Consultant with a strong commitment to professional development and active engagement in learning and CPD. You will be expected to undertake acoustic project work, assisted by others.

What we can offer you

- > Competitive salary
- > 25 days annual leave, increasing to 30 with length of service
- > Quarterly bonus
- > Contributory pension scheme

- > Life insurance
- > Critical illness cover
- > Health insurance
- > Subsidised gym / sport membership
- > Cycle to work scheme
- > Season ticket loan
- > Exceptional commitment to training and professional development
- > Opportunity for company ownership

About us

We are an energy and environmental consultancy working from planning application stage through to handover and post occupancy, helping our clients meet ever challenging environmental standards. Our aim is to provide innovative strategies that respond to increasing demands for quality and construction efficiency. Our team of technical specialists offer advanced levels of expertise and experience of the construction and development industry and we tailor teams to suit each individual project.

We understand the importance of people within our company and their relationships with our clients. We pride ourselves on attracting and retaining the best employees by providing a stimulating, safe and enjoyable working environment. We are employee-owned, and a policy of profit-sharing is integral to all employee salary packages.

We continue to invest in the training and continued professional development of our staff. And we have a strong commitment to research and development which places our team at the forefront of new thinking. Our leading reputation is based on successfully providing realistic solutions to complex problems through the knowledge, skills and commitment of our specialist team.

Our offices are located in Rickmansworth providing an excellent working environment for our team of specialist consultants. Whilst we are able to offer flexible working to cover individual requirements, this is primarily an office-based role.
