

NOW RECRUITING

Become part of our society

About the team

The team is a compact, diverse, and close team and have a huge variety of project types including Buildings Acoustics (residential, education, healthcare, offices etc.), Environmental Acoustics (data centres, industrial) and Infrastructure Acoustics (national significant infrastructure projects such as roads).

The team is currently 9 members strong, with most based in the City of London and colleagues working in Chelmsford, Cambridge and Bristol.

What does the role involve?

We are looking for a Principal/Lead Acoustic Consultant to run and manage the majority of our purely environmental acoustic projects. This will be the primary role, however there would be opportunities to get involved with other project-types as well, depending on your desire to focus on certain areas.

For more detail about what the role involves, please visit the link on the next page and navigate to the advertised role.

To be successful in this role, you'll possess:

- ✓ A degree in Acoustics or a related subject.
- ✓ Corporate membership of the Institute of Acoustics (MIOA).
- ✓ Significant experience in the management of environmental acoustics projects.
- ✓ A track record in winning work, managing client relationships and delivering a service representative of a project's budget.
- ✓ Experience of working as part of a multidisciplinary environmental team, managing noise and vibration inputs.
- ✓ Experience of acting as the competent expert during Planning Inspectorate examinations or the noise and vibration specialist during Planning Enquiries.
- ✓ A track record of successful engagement with UK local planning authorities.

See the full list at www.sweco.co.uk/careers/vacancies

Skills that would help you be successful:

- ✓ Knowledge and understanding of the standards, regulations and methodologies related to your area of acoustic consultancy.
- ✓ Experience in maintaining a good working relationship with colleagues and external customers.
- ✓ Competent in the use of Cadna/A.
- ✓ Interest in personal development.
- ✓ Project, client, and financial management skills.

Transforming society together

What's in it for you?

- ✓ Working at Sweco you'll experience an inclusive, friendly, and flexible working environment where colleagues are encouraged to grow and develop. We are returning to our offices as the restrictions come to an end to provide a social environment in which to work, whilst giving our employees the flexibility to work at home as and when they need to.
- ✓ We are committed to employing the best people and becoming the leading acoustic consultancy in the UK and we need you to help us reach our goals. We are offering competitive salary and benefits packages with further details available on request.
- ✓ If you believe you have the skill set required and are keen to join a business with great opportunities and big aspirations, then we'd love to hear from you.

More about us

- ✓ Approachable and committed people are the core of our business. Serving our clients in challenging projects is part of our daily work.
- ✓ The acoustics team is a key specialist group within our Buildings Division, and we have close connections with our Advisory and Planning Division.
- ✓ Sweco plans and designs the sustainable communities and cities of the future. Together with our clients and the collective knowledge of our architects, engineers and other specialists, we co-create solutions to address urbanisation, capture the power of digitalisation, and make our societies more sustainable. Sweco is Europe's leading engineering and architecture consultancy, with sales of approximately SEK 21 billion (GBP 1.8 billion). The company is listed on Nasdaq Stockholm.
