

Acoustics Opportunities

What we offer

- Excellent pay and pension.
- Four-day week.
- Up to 30 days holiday.
- Payment of IoA fees.
- No time sheets.
- Flexible working.
- Diverse projects.

Exceptional opportunities for ambitious acousticians to work within an enthusiastic team at a leading acoustic consultancy. This is your chance to be involved in some unique projects from film stages, state of the art offices, schools designed for SEND learning, most hotel brands and noise and vibration within industry and onboard ships.

There are no unnecessary distractions like timesheets. We enjoy our work and prioritise a healthy work/life balance which is why we operate a four-day week and progressive holiday package.

Location Either in our offices on the coast or elsewhere in the UK - the choice is yours.

Acoustics Consultant Responsibilities include planning and undertaking noise and vibration surveys throughout the UK, data analysis, noise modelling, technical reporting, fee quotes and forging strong client relationships.

Senior Acoustics Consultant You will oversee a small team, check reports and be a natural at developing business for the company plus the responsibilities of an acoustics consultant.

Principal Acoustics Consultant Leading from the front and using your wealth of technical knowledge and experience you will inspire your team to fulfil its potential.

All roles require excellent organisation, communication and writing skills. Flexibility, driving license and charisma essential. Qualifications should include an acoustics degree and/or IoA Diploma.
