

Acoustic Consultant | Senior-Principal Acoustic Consultant

Communities are fundamental. Whether around the corner or across the globe, they provide a foundation, a sense of place and of belonging. That's why at Stantec, we always design with community in mind.

We care about the communities we serve—because they're our communities too. We're designers, engineers, scientists, and project managers, innovating together at the intersection of community, creativity, and client relationships. Balancing these priorities results in projects that advance the quality of life in communities across the globe.

Stantec's UK Acoustic Team is engaged in a wide range of projects and to help continue the successful growth of the team and wider Stantec UK business, we are seeking talented individuals who will be a key part of the expansion of our capabilities.

Location is flexible and we would encourage you to apply no matter where in the UK you are based.

At Stantec, we create opportunity by inviting, embracing and celebrating differences. This goal remains at the heart of our efforts to champion inclusion and diversity throughout our organisation. To achieve that goal, we must continue to build an inclusive workplace that empowers and inspires but also attracts and nurtures the very best talent from all over the world.

Interested? Why not apply today and one of our team will be in touch to discuss further!!
