

# adnitt acoustics

Independent acoustic design and testing since 2000

Are you an acoustic consultant ready for a new challenge?

Do you have a passion for acoustics and noise control?

If you answered yes to these questions, then this could be the job for you.

We are an employee owned company that is committed to providing a flexible work environment for all our employees and we are currently looking for an experienced acoustic consultant to join our friendly team in North East Surrey/South West London.

In this role, you will be responsible for providing advice and guidance on noise control and acoustics to our clients including undertaking site visits where required.

We are looking for an experienced acoustic consultant who can work 60% of the time in the office with the rest of the team and home working is possible outside of this. Hours are flexible and the ability to work independently is essential.

You will ideally have the following:

- Knowledge and experience in the field of acoustics (typically MIOA)
- Effective communication skills with clients and colleagues
- Be familiarised with noise modelling and GIS software
- Be able to problem solve and think creatively
- The ability to work well with other people
- An eye for detail

If you are a motivated person with a strong interest in acoustics and noise control, we would love to hear from you.

If you are interested in this role, have a full clean driving licence and the right to work in the UK, please email your CV and a covering letter to [gshaw@adnitt.com](mailto:gshaw@adnitt.com)
