

Acoustic Consultants, London

Are you looking for your next career step? Do you want the opportunity to work on a broad range of projects, utilising your acoustics knowledge to provide first class noise and vibration advice to our clients? Can you lead, inspire, and motivate a skilled team of junior consultants?

KP Acoustics Group are the global experts in acoustics. We work on a wide range of projects across four distinct areas including Consultancy, Monitoring, Research and Training as well as developing revolutionary new acoustic monitoring technology, eNView.

You should have a minimum of 2 years in acoustic consultancy with a proven track record of delivering excellent acoustic consultancy services for projects of varying gravitas and calibre.

Desired Skills:

- Bachelors degree in a relevant subject and/or the IOA Diploma in Acoustics and Noise Control
- Working knowledge of legislation and guidelines relevant to the acoustics sector
- A strong technical background, experienced in both building and environmental Acoustics
- Acoustic software experience (ODEON, INSUL Soundplan, CadnaA)
- Able to effectively communicate with professional courtesy with clients
- Able to inspire, manage and motivate a team of junior consultants

Duties:

- Delivery of robust and elegant solutions in acoustics
- Daily and effective project management
- Direct, hands-on involvement in the full timeline of projects from concept to commissioning
- Inspire, manage and motivate a team of junior consultants

Salary:

Competitive + company benefits

If you are exceptionally good at what you do and are passionate about acoustics, please send a copy of your CV and a cover letter to Consultancy Manager Steven Leslie on sl@kpacoustics.com or Associate Director Aidan Tolkien on at@kpacoustics.com
