

Noise and Vibration Trainee (Assistant Acoustic Consultant)

We are currently seeking a driven individual, who is looking to train as a Noise and Vibration specialist, to work on large scale UK wide infrastructure projects. If you are a motivated person with great observational skills, who is looking to develop and hone your expertise via practical application, then this role will provide what you are looking for.

Full training will be provided, with the position extending to post graduates ideally with a relevant acoustics, physics, or engineering based degree.

At Meta Environmental, we are always striving to improve the quality of our deliverables, through innovation, industry experience, company training goals (including any industry related qualifications the applicant may aspire to gain), and the latest digital applications.

All team members can present new ideas, or suggestions on how to improve upon existing processes, leading to group discussions about how the implementation could be realised. Observations out on site regarding potential mitigation solutions to construction sound or vibration, is something that Meta Environmental is extremely passionate about. The goal being to design and build mitigation measures to reduce the impacts to residents and businesses in the vicinity to construction projects.

The successful candidate should ideally have:

- 0-3 years of experience of working as an assistant acoustic consultant or acoustic consultant;
- Experience of conducting attended sound or vibration based surveys;
- Technician IOA status;
- Full UK Driving License;
- Excellent communication and observational skills;
- Based in England or Wales;
- Experience or willingness to work at night (salary based on out-of-hours work);
- Personal Track Safety (PTS), and CSCS (Training provided if required).

Meta Environmental rewards committed and enthusiastic individuals, who strive to consistently develop and learn new skills.

To apply, please contact Tim Maynard or Andrew Knight at info@metaenvironmental.co.uk and attach your CV.
