

Acoustical Investigation & Research Organisation Ltd (AIRO) is a long established specialist acoustical consultancy firm, with extensive laboratory facilities, based in Hemel Hempstead, Hertfordshire. We are seeking applications for the grade of Assistant Consultant.

The successful candidate would be expected initially to become involved with:

- specialist laboratory acoustical measurements,
- calibration activity,
- on-site sound insulation measurements.

You will need to demonstrate that you can enthusiastically:

- work with colleagues to learn and develop a technical aptitude for acoustics,
- engage in the practical aspects of testing including installing test samples,
- organize and carry out typical assignments in an efficient and timely manner,
- communicate effectively with the customer and colleagues.

Required qualifications include membership of the Institute of Acoustics at Technician grade (TechIOA) or a demonstrably equivalent level of qualifications and experience. Applicants would be expected to hold a full driving licence and to have or rapidly obtain a valid CSCS Card in order to carry out site work.

AIRO supports the professional development of its staff via appropriate training and further education. Competitive remuneration and benefits are provided.

Applications including a detailed CV, should be sent to David Watts (Principal Consultant) by e-mail to [David.Watts@airo.co.uk](mailto:David.Watts@airo.co.uk) or by post addressed in confidence to the Managing Director, Dr Tony Jones, at our Hemel Hempstead office (address on our website [www.airo.co.uk](http://www.airo.co.uk)). Telephone David Watts on 01442 247146 for an informal discussion about the position.
