

Principal

Acoustics

Consultant

Location: Any UK office

SLR are global leaders in environmental and advisory solutions. Our team of highly qualified and experienced professionals work on diverse and challenging projects around the world.

Our established Acoustics & Vibration team continues to achieve ongoing commercial success and geographical expansion. With a strong pipeline of potential projects, the team is looking to continue this growth through the addition of a Principal Acoustician to diversify and further grow our portfolio of clients.

Person Spec Summary:

- Proven and extensive acoustics experience within a consultancy environment.
- Excellent business development capabilities, commercial acumen and project management skills.
- Proficiency with Cadna/A software and knowledge of relevant BS standards for report writing.
- Adept in the use of noise and vibration monitoring equipment.
- AMioA or MioA membership and a relevant degree level qualification.
- Experienced in organising and leading client meetings.

Other benefits include...

- Competitive Salary
- Travel Insurance
- BUPA Healthcare
- Structured career framework

Responsibilities:

- Driving new business growth, seeking opportunities through networking and cross-selling services, expanding Acoustic capabilities throughout the UK.
- Coordinating and liaising with technical colleagues and project managers across the SLR business.
- Preparing fee proposals, report writing (ES chapters) and technical review work.
- Conducting noise and vibration surveys within your local region, also providing support nationally.
- Ownership of projects, advising clients on developments including mixed use and residential masterplans, quarries, infrastructure, and energy.
