

Senior Acoustic Consultant

We have an exciting opportunity for a Senior Acoustician. If you are enthusiastic, motivated and committed to being part of our expanding team and development, this could be the post for you.

We are an independent acoustic and air quality consultancy, based in a heritage location close to Bolton and the West Pennine Moors. We work predominantly around the North West, specialising in environmental noise assessments, architectural acoustic detailing and sound insulation testing.

There will be plenty of opportunity to develop your skills base. Miller Goodall have a wealth of experience within the team and offer excellent training opportunities. We are involved with a number of exciting projects including; hotel developments, large housing schemes, leisure and retail developments and significant industrial developments.

The role includes:

- Project management of environmental noise assessments and sound insulation projects, including;
 - Liaising with clients regarding project requirements etc;
 - Ensuring project deadlines are met;
 - Ensuring projects meet budget;
 - Ensuring projects are completed professionally;
 - Ensuring projects are invoiced in a timely manner; and
 - Ensuring clients are happy with the performance of the business.
- Production of quotes and proposals;
- Producing documentation and reports to the business standard; and
- Attending networking events representing the business.

The successful candidate will have:

- Over 5 years' experience in producing and project managing environmental noise/sound insulation testing and detailing;
- Proven record of project management and completion of projects as an acoustic consultant;
- Experience of completion of EIA projects;
- Experience in environmental noise monitoring;
- Noise modelling experience (ideally CadnaA);
- Excellent communication, report writing and time management skills;
- Excellent attention to detail;
- Experience with drafting fee proposals;
- Experience with client liaison;
- Minimum qualification of a diploma in Acoustics;
- ANC or UKAS Registration as a sound insulation tester;
- Full UK Driving License; and
- Membership of the IOA.

You bring us enthusiasm, skill and commitment, and we'll reward you with a highly competitive salary, a flexible and friendly work environment, and excellent training opportunities.
