

A specialist energy consultancy

Senior Consultant - Acoustics

We are looking for an ambitious and motivated Senior Acoustic Consultant to join our growing Environment and Engineering Team. The Environment and Engineering team assists developers in taking energy projects from conceptual ideas to operational assets. We offer a range of consultancy services including acoustics, planning, consenting, GIS and expert witness. Our projects range from early feasibility studies right through to environmental compliance, due diligence and beyond.

Why work for TNEI:

- Join a world class team in a rapidly growing industry
- Have a hands-on opportunity to make a real difference in a small company
- Excellent professional and personal development opportunities
- Professional membership fees paid for
- Discretionary annual performance-based bonus
- Company contributory pension scheme
- Private medical, death in service and permanent health insurance
- Flexible hybrid working policy
- 25 days annual leave
- Additional day off on your birthday!

This exciting role will provide the successful candidate with an opportunity to develop/ further enhance a career within the renewable energy industry with exposure to a wide range of projects and activities.

Essential requirements:

- An acoustics, physics, maths or data science related degree.
- Membership of the Institute of Acoustics.
- Experience of working in a consultancy environment and client facing activities.
- Experience of undertaking noise surveys.
- Strong general numeric and mathematical skills.
- Proactive and solution orientated with strong attention to detail.
- An ability to understand and explain abstract concepts in a clear way to technical and non-technical audiences.
- Project management experience.
- Strong written and verbal communication skills.
- The ability to demonstrate a drive to deliver high quality work.
- Proactive team player.
- Full Driving Licence.

Location: Dublin, Glasgow or Newcastle upon Tyne office.

Closing date: 9th February 2024
