

Environmental Technician

We are looking for a self-motivated and practically minded team member to support our construction and environmental sectors.

The role will involve the maintenance and management of our equipment as well as carrying out noise, vibration, dust and air quality surveys.

Requirements

- Relevant educational/work background (degree not essential)
- Likes being out and about
- Enjoys meeting new people
- Highly organised
- Practically minded
- Current UK driving license and willingness to travel
- Team player

Employee-Owned

As an employee-owned company we directly benefit from our own success, making us more committed, innovative and transparent in our working practices. We believe a happy, autonomous and self-motivated team of co-owners delivers the highest level of service quality and client value.

What we offer

The role will be based out of our London office. There will be a competitive salary based on experience, company pension scheme and employee ownership profit share.

Anderson Acoustics is an employee owned consultancy providing acoustics, noise, vibration, air quality and community engagement services to clients in the construction, planning and aviation sectors. We work across a range of projects from the likes of Heathrow Expansion, HS2, Tideway through to mixed use developments for major house builders and supporting small projects with local businesses, architects, planner and builders.
