

Penguin Recruitment is a specialist recruitment company offering services to the Environmental Industry

Graduate Acoustic Consultant – Bedfordshire £23,000 pa

Niche specialist in noise and vibration require a fresh Graduate to work across both their consultancy and design arms of the business. Exciting project base includes schools, hospitals and performance spaces.

Acoustic Consultant – South East £25,000-£28,000 pa

I am currently looking for an Acoustic Consultant to join a leading UK based noise engineering and design consultancy. My client has a high profile client base and an impressive portfolio of work, and is now offering the successful candidate a fantastic opportunity to join a reputable team of acoustic specialists, with a competitive starting salary, training, and room for rapid promotion. My client is looking for candidates with a minimum of a BSc and an IoA Diploma.

Environmental Acoustic Consultant – Warrington. £24,000-£26,000 pa

A leading acoustic consultancy is now looking to recruit an Environmental Acoustic Consultant to join their Noise and Acoustics team in their Warrington office. The successful candidate will be offered a senior position within a reputable team, a highly competitive salary, a flexible benefits package, and room for personal input into team and business development. Applicants must hold a related BSc or MSc, and IoA Diploma, and IoA Membership, a full driving licence, and excellent communication skills. You will also have five+ years consultancy experience with a bias towards environmental acoustics, extensive experience with Acoustic Modelling software, and a proven ability to manage a multitude of projects.

Architectural Acoustic Consultant – London £25,000-35,000 pa

A nationally recognised organization that provides building and architectural design, is looking to recruit to an Acoustics Consultant to join their team in London. You need to have a minimum of 5 years Acoustics Consultancy experience and have a proven track in project management. Responsibilities will include undertaking survey work, writing technical reports, inputting into business development plans, liaising with clients, and project management of medium to large scale projects. If successful you will receive a competitive salary, excellent benefits and career progression.

Environmental Noise Specialist – Northampton £25,000 pa

A leader in the engineering and environmental design markets need an Environmental Noise Specialist to work from anywhere in the Midlands. Extensive monitoring experience is required along with a deep understanding of EIA's.

Acoustic Sales Engineer – Cambridge- £20,000 pa

We have an exciting opportunity for an Acoustic Sales Engineer with engineering sales experience to join an independent company that specialises in the noise and sustainability market. Working closely with the compliance division of the business, you will be liaising between technical staff and clients at all stages of the client's projects, producing quotation, carrying out business development and achieving revenue targets.

Noise Consultant – Reading - £25,000-£30,000 pa

Our client is a UK leading independent environmental consultancy, looking to recruit an Noise Consultant to be based in their offices near Reading. Duties will include project admin, liaising with clients, local authorities and the public, running installations of monitoring equipment and organising logistics, collating and analysing data, noise modelling, writing technical reports, and providing guidance and support to clients.
